Kalamazoo, Michigan - February 16, 2016 - Stryker Corporation (NYSE: SYK) announced today a definitive agreement to acquire 100% of the stock of Physio-Control International, Inc. ("Physio-Control") in an all cash transaction for \$1.28 billion. Physio-Control, which is a portfolio company of Bain Capital Private Equity, develops, manufactures and markets monitors/defibrillators, automated external defibrillators (AEDs) and CPR-assist devices along with data management and support services. The company was founded in 1955 and has a long history of innovation with products that target urgent patient care, specifically designed to improve survival rates and patient outcomes. The company's portfolio is highly complementary to Stryker Medical's EMS (Emergency Medical Services) offering and will drive a greater balance between capital and disposables. Physio-Control also brings an enhanced presence and infrastructure that will expand Stryker's global footprint. Physio-Control sales for fiscal 2015 totaled \$503 million, up 6% in constant currency over the prior year.

"Physio-Control has achieved global leadership positions with a strong brand and customer-centered solutions that can predict or intervene in life-threatening emergencies," stated Kevin A. Lobo, Chairman and Chief Executive Officer. "Physio-Control's focused strategy and their culture will fit well within the EMS business of our Medical division, further leveraging our existing call pattern. We look forward to welcoming the Physio-Control team to Stryker."

"Joining Stryker is an exciting next step in the evolution of Physio-Control for both our team and our customers," said Brian Webster, President and Chief Executive Officer of Physio-Control. "Stryker has a deep understanding of capital equipment and of our core market segments. We will build on the success our team has achieved in partnership with Bain Capital, and further accelerate the execution of our strategy, including continued investment in great product solutions for our customers."

"It has been a privilege to work collaboratively with Brian and the management team as the company has shown great progress and built even more enduring customer loyalty," said Chris Gordon, a Managing Director at Bain Capital Private Equity. "Physio-Control has added significant operational strength and made substantial investments in R&D to accelerate the development and launch of its next generation product lines. We believe the business is well positioned for further growth, and are confident that Physio-Control will continue to thrive under Stryker's ownership."

The closing of the transaction is subject to expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act and other customary closing conditions. The acquisition of Physio-Control is expected to close at the beginning of the second quarter and be slightly accretive to our adjusted per share earnings in 2016. Our revised adjusted 2016 EPS guidance reflecting the Physio-Control acquisition and the previously announced transactions is now \$5.57-5.77 up 8.8-12.7% which includes a 2.5% negative foreign exchange rate impact on our adjusted earnings per share. For 2017 we expect the acquisition of Sage and Physio-Control combined will be accretive by \$0.15-0.18, net of the negative impact of postponing our share repurchases that were included in our original guidance for 2016.

Skadden, Arps, Slate, Meagher & Flom LLP are serving as outside legal counsel for Stryker in connection with this transaction.

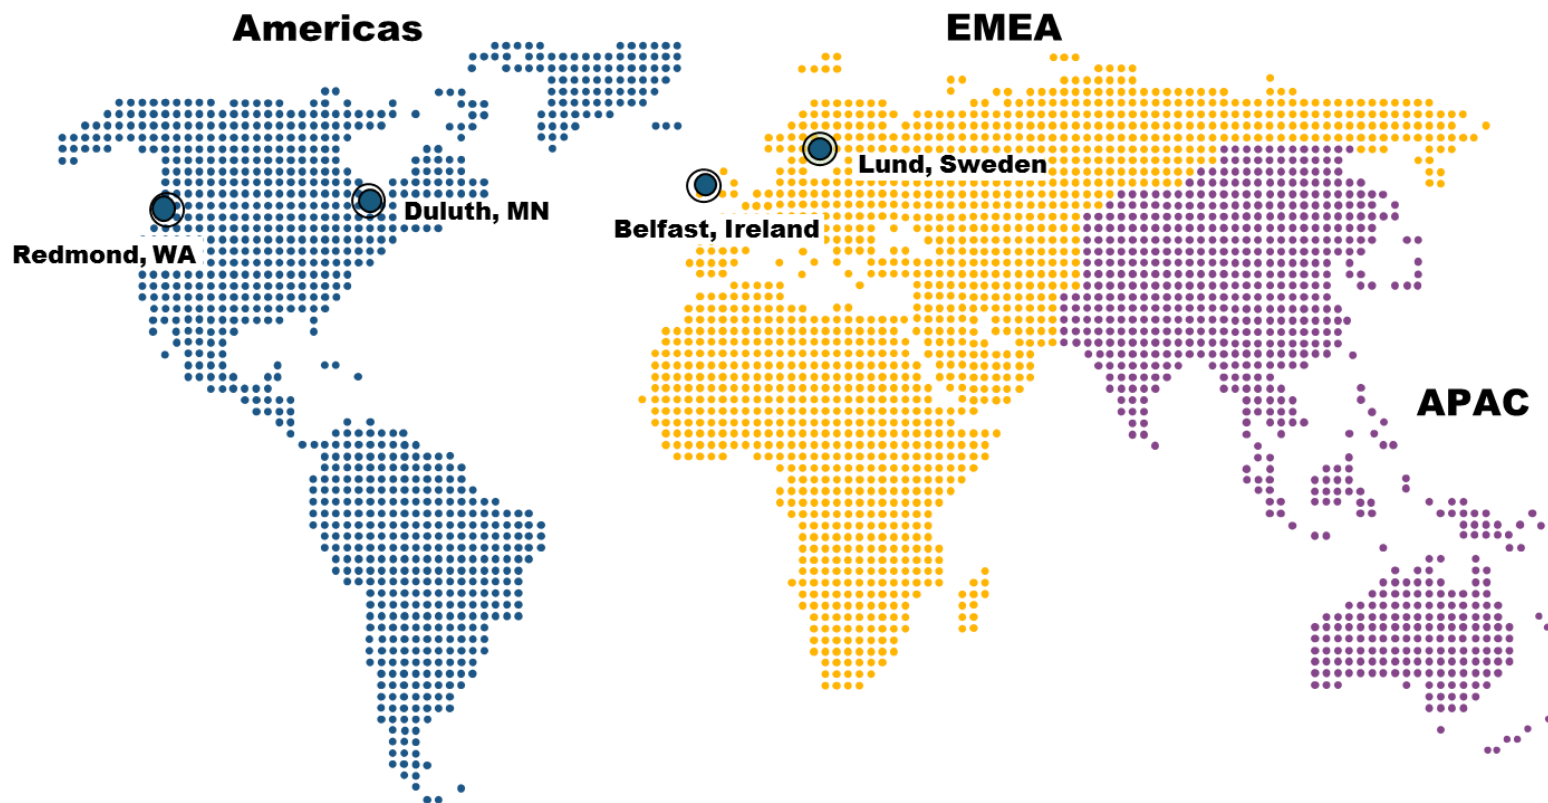

Citi and Jefferies LLC acted as financial advisors, and Kirkland & Ellis LLP served as legal counsel, to Bain Capital.

Stryker will host a conference call for financial analysts at 8:00 a.m., Eastern Time, today to discuss additional details regarding the proposed transaction. To participate in the conference call dial 888-771-4371 (domestic) or 847-585-4405 (international) and be prepared to provide confirmation number 41816481 to the operator.

A simultaneous webcast of the call will be accessible via the Company's website at www.stryker.com. The call will be archived on this site for 30 days.

Una vida salvada cada **15 minutos**

Hola, mi nombre es Gabriel Villalobos y el día 20 de agosto del 2018 sufrí un paro cardíaco adentro del aeropuerto. Quiero agradecer en especial al personal médico que salvaron mi vida, de no ser por la respuesta tan pronta y eficaz que tuvieron, no estaría con vida. Infinitas gracias!

Hoy mi familia y yo podemos disfrutar de una navidad juntos y felices. Les deseo la mejor de las navidades a ustedes y sus familias y un próspero año nuevo! Que Dios los bendiga!

y de nuevo... MUCHAS GRACIAS
